ABOUT ME

I'm a passionate problem-solver who thrives on using technology to tackle complex business challenges. With a strong background in data management, system design, and strategic analysis, I enjoy creating innovative solutions that boost efficiency and drive growth. I'm naturally curious, adaptable, and always eager to learn, which helps me easily navigate fast-paced environments. I aim to make a meaningful impact by supporting data-driven decisions and helping organizations achieve their goals.

WORK EXPERIENCE

BIGINTEGER – CHATTOGRAM, BANGLADESH
SOFTWARE DEVELOPER - INTERN – 09/01/2023 – 31/08/2024

- Assisted with UI/UX design tasks to enhance the visual and interactive elements of our projects.
- Supported the creation of responsive UI templates using HTML5, CSS3, and Bootstrap.
- Contributed to the ongoing development of an Android-based school result management application using Java and Android SDK.

HA-MEEM GROUP – DHAKA, BANGLADESH
OFFICER - MIS & ERP – 01/12/2024 – 31/05/2025

- Assisted in implementing and enhancing the ERP system by providing user support, training, and gathering feedback for continuous improvement.
- Collaborated with departments to develop an ERP library based on business and user requirements.
- Delivered comprehensive reporting (ERP Road MRP, ERP Reports, Drive Reports) and analytical insights to support management decisions.
- Conducted user training and provided ongoing guidance to ensure effective ERP system utilization.
- Developed and maintained Management Information Systems (MIS) to streamline information flow and support strategic planning.
- Generated and analyzed data-driven reports for cross-departmental decision-making.

SECONDARY SCHOOL CERTIFICATE IN SCIENCE Sristy Academic School

Website https://sristy.edu.bd/ | **Final grade** 5.00

PUBLICATIONS

2023
[A Deep Learning Approach for Bengali News Headline Categorization](#)

A lot of information and data is now available in seconds through the internet. Due to the availability of the internet in the world, as the amount of online news is increasing on the one hand, people are interested in reading news from online news portals i.e., Facebook, Twitter, WhatsApp, Telegram, Instagram, blogs, etc. Along with the increase in the amount of digital data in news portals, the number of readers is also increasing, thus the need for data classification for digital data is also increasing day by day. There are various methods of data classification methods, such as machine learning, deep learning, etc., and various data mining algorithms.

14th International Conference on Computing Communication and Networking Technologies (ICCCNT), 2023

LANGUAGE SKILLS

Mother tongue(s): **BENGALI**

Other language(s): **ENGLISH**

SKILLS

C | Html, Java, CSS | Python | SQL | Managing Databases (MySQL) | Machine Lerarning | Microsoft PowerPoint | Microsoft Excel | Adobe Photoshop | Adobe Illustrator

PROJECTS

AgriMan - Agricultural Management System Application

Utilized Technology: Java (Native Android), Firebase, Android SDK

Traffic Sign Recognition Using Deep Learning

Utilized Technology: Python, CNN, Tensorflow, Keras, Pandas, NumPy, Tkinter, OpenCV

PDF Reader Mobile Application

Utilized Technology: Android SDK, Java, Firebase

Hospital Management System

Utilized Technology: Java, MySQL Database

RECOMMENDATIONS

Md. Abbas Ali Khan Assistant Professor, Department of CSE, Daffodil International University

I wholeheartedly recommend Sabid Ahmed Sunve for admission to your esteemed institution. I am confident that he will contribute positively to your academic community through his intellect, enthusiasm, and commitment to excellence. He has shown tremendous potential, and I do not doubt that he will make the most of this opportunity and bring great credit to your institution. I am also confident that he will continue to shine and make significant contributions to the field of study he pursues.
